

CONSTRUCTION UPDATE

Our Future in Progress

Indian Bend Road Construction to Begin September 17

Construction work is set to begin on a series of roadway and drainage improvements to Indian Bend Road between Scottsdale and Hayden roads. Construction work will occur in several phases and is scheduled to begin Sept. 17.

Phase I: September 2007 – February 2008

One lane of traffic will be maintained in each direction at all times

The first phase of work will occur on the southern side of the roadway, and all traffic will be shifted to the north side of the road. During this phase, the southern half of the new alignment of Indian Bend Road will be constructed between Scottsdale Road and the wash and between the wash and Hayden Road. Additional work will be performed in the wash to prepare for the installation of the new drop structure and bridge.

Phase II: February – May 2008

One lane of traffic will be maintained in each direction at all times

The second phase of work will occur on the northern portion of the roadway, and all traffic will be shifted to the newly completed roadway on the south side of the road. During this phase, the northern half of the new alignment of Indian Bend Road will be built and constructed between Scottsdale Road and the wash and between the wash and Hayden Road. Additional work will be performed in the wash to prepare for the installation of the new drop structure and bridge.

Phase III: June 2008 – April 2009

One lane of traffic will be maintained in each direction at all times between Scottsdale Road and the wash and between the wash and Hayden Road. For a portion of this phase Indian Bend Road will be closed to all traffic over the wash.

The final phase of the project will complete the center median, turn lanes and connection to the proposed bridge over the Indian Bend Wash. Construction of the bridge and drop structure will be the focus of this phase of construction.

Questions?

For more information on the Indian Bend Road project or related construction, please contact City of Scottsdale Project Manager Vivek Galav at (480) 312-7245 or VGalav@ScottsdaleAZ.gov

Traffic Control

One lane of traffic will be kept open at all times except during the Indian Bend Wash closure, which is needed to expedite the construction of the project. This closure of wash will be for about five months and is anticipated to start in the summer of 2008. During this closure, however, both ends of the project will remain open to provide access to businesses and residents. Access for emergency vehicles will be kept open at all times.

All construction work will be performed by Hunter Contracting under contract to the City of Scottsdale. Work will occur Monday through Friday between sunrise and sunset.

Upon completion, the project will include;

- an expanded roadway from 2 to 4 lanes,
- a new bridge over Indian Bend Wash,
- bus bays and shelters,
- a multi-use path connection to the wash,
- increased intersection capacity through the addition of turn lanes at Hayden and Scottsdale roads, and,
- landscaping and public art elements to the corridor.

Thank you for your patience during construction and we apologize in advance for any inconvenience the work may cause.
